EDUCATION

Technological University of the Philippines - Cavite

Sep 2022 – Present

Bachelor of Engineering Technology Major in Computer Engineering Technology

EXPERIENCE

Full-Stack Web Developer Intern

Feb 2026 - July 2026

One Outsource Direct Corporation

Makati City, Metro Manila, Philippines

- Developed and maintained front-end and back-end features for the OneApp Learning Management System (LMS), enhancing platform functionality and supporting a seamless user experience.
- Implemented responsive UI components and system enhancements, improving accessibility, usability, and cross-device compatibility for learners and administrators.
- Diagnosed and resolved QA-identified issues while collaborating on feature releases and system updates, increasing application stability and ensuring reliable platform performance.

UNIVERSITY PROJECTS

Innovation of Digital Ordering and Management System for MSMEs

Mar 2025 - Nov 2025

Thesis Project

- Developed and deployed a customizable digital ordering and management system for three MSME beneficiaries across different business sectors, translating business requirements into a scalable and adaptable solution.
- Integrated key modules, including inventory management, order tracking, payment processing, and customer management, streamlining operations and reducing manual workloads to improve business efficiency.
- Designed and optimized responsive user interfaces while collaborating with stakeholders and team members to analyze requirements and implement system functionalities, enhancing usability and cross-device user experience.

Laboratory Equipment Borrowing and Management System

Sep 2024 - Mar 2025

Web and Mobile Application

- Built a web and mobile-based laboratory equipment management system that streamlined equipment monitoring, reservations, and borrowing processes.
- Automated request approval and tracking workflows, improving transaction accuracy and reducing administrative effort.
- Crafted responsive interfaces for students and administrators, delivering a more accessible and intuitive cross-platform experience.

Library Borrowing and Management System

Feb 2024 - Jun 2024

Desktop Application

- Designed and implemented a library management system that automated book borrowing, return tracking, and user record maintenance.
- Streamlined library operations by centralizing transaction records, improving efficiency and accessibility for users and administrators.

SKILLS

Technical Skills:

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Bootstrap, Tailwind CSS
- Backend & Databases: Python, Django, PHP, MySQL
- Tools & Version Control: Docker, XAMPP, Visual Studio Code, Git, GitHub
- Design & UI/UX: Figma, Visily, Draw.io, Canva, Adobe Photoshop

Personal Skills: Leadership, Team Collaboration, Communication, Organizational Skills, Attention to Detail, Problem Solving, Analytical Thinking, Time Management
